Thank you .

Hello,

And thank you for picking a copy of my report. I am excited to have you here.

This will most likely be the most life-changing letter you will read this year.

This e-book has been designed in the form of questions and answers. They are everyday questions I received regarding the easy online money-making business.

The questions are 21 in number. Read slowly through all the questions.

Most of the questions here are the ones you have in mind right now. Read through and as you read, **collect all the free gifts meant for you till the last question.** They are all meant to help you with making money and self-development.

IMPORTANT NOTICE:- This book was written with the assumption that you don't know much about making money online. So, if you already know the answer to some question. Simply skip to the next question.

Question 1:- Who are you and why should I listen to you?

Answer:- My Name Is Deji Badmus (

My close friends and those that know me very well said I like money too much, So, they joined "Martins" and "million" together, resulting in "Mallion".

I would have preferred they joined it with " BILLion though, but anyway..that aside.

I like money a lot because of what you can do with it and I love it the more when I realized what you "can't" do without money.

I was forced to like money because of what I have been through without money.

You already know that you need money to pay rent so you don't get kicked out of your rented apartment.

You need to buy food so you don't go begging and asking for money from people you don't want to.

You need money to take care of that special person in your life

The list is endless, you know already.

I have been a business consultant for over 5 years now. I majorly help companies, mostly start-ups to increase the sales and profit margin.

So, I get asked almost every single day about easy and fast ways to make at least One million naira online.

I am here to change everything for you. In the next few minutes I'm going to show you and explain everything to you about an online business that can give you one million naira in no time..100% guaranteed.

Question 2:- Badmus, can I legitimately make easy and fast money online from the comfort of my bed?

Answer:- This question is a question rooted in ignorance.

You need more exposure and I am going to expose you to some secrets if you allow me.

You need to step outside of the mindset that you were raised in. A mindset of "go to school and work in an office".

You will hardly see a closed mind achieve much in life. You need to have an open mind to ideas otherwise you might miss so many opportunities in life.

So, you already know the answer to this question. Of course, you can!

I would be telling you secrets only my family that I created for newbies on WhatsApp about this online business knows.

7 figures Online Family

10/1/21

And don't worry, I would show you how to join us shortly.

The trick is to find someone who is doing it and "model" (copy) the person. It's as easy as that, try not to complicate it.

And in a moment, **I will be showing you an easy, proven, and fast system that will make you between \$500 - \$2,000 monthly, 100% guaranteed.**

In detail, a little known but highly profitable online business you can start and profit from before the end of this year.

I call this business "little known" because it is not the generic type of business that most people are aware of.

Apart from that, it does not need a lot of capital for you to get started. And it is highly profitable too as well as **there is no single limit to how much you will earn.**

Question 3:- Is this business a referral business?

Answer:- Lol, don't worry **it's not**. I don't do bring 20 people to pack 1m.

But, before I tell you what this online business that will generate between \$500 - \$2,000 monthly is all about. Let me tell you,

What This Business Is Not:

- **This IS NOT an investment of any sort.**
- **This IS NOT some Ponzi scheme where you bring two people under you or you bring 10k to pack 10M.**
- **This IS NOT Forex or Cryptocurrency or any type of Smart contract whatsoever (all of which are saturated every online).**
- **This IS NOT Network Marketing or an MLM scheme**
- **This IS NOT Referral based and does not require you to bring anyone.**

This is a business model you can apply on your own, in the comfort of your bedroom, and make a profitable living from it.

You can even apply the knowledge to your online business and make 10 times your sales and profit if you have one already.

Question 4:- What is this business model you have been talking about?

Answer:- Okay, I understand you are getting impatient. You want me to tell you now or just keep quiet.

I would tell you now.

This business model I have been talking about is **Affiliate Marketing**. You must have heard of it before, but I will tell you a secret about Affiliate Marketing in Nigeria that most people don't know about.

A secret most people don't.

But before I continue,

You might want to ask- **What Affiliate Marketing is:**

Affiliate marketing is when you earn a commission by promoting other people's (or companies) products. You find a good product you like, then you promote it to those who want it and earn a piece of the profit for each sale you make. The profit you make from ONE sale can be between 5k to 100k.

You might also want to know- **Who is an Affiliate:**

An Affiliate is an individual or company that markets other company's products or services and get a commission in return for valid sales generated at the end.

I'll be explaining this affiliate concept further using a simple illustration with one of my business so you understand it perfectly.

I sell cars.

What happens most times is that car owner that wants to sell their car due to personal reasons call me and update me about their intention.

Now, if the car for sale is let's say 1.5M, they would promise me 3%-5% which is 45k to 75k when I bring(recommend) someone to buy a car.

Now, because I am already known for selling cars. I call someone that I know needs and want the car and then I recommend the car to the person.

When the person pays for the car, I get paid!!

And I go to a nice and fancy restaurant to go and buy one plate of food for 10k for me and my girlfriend(20k in total). I will now still send everybody close to me urgent 2k. Then I will go and lodge in a hotel with the remaining change so I can feel like a big boy ..lol, just kidding.

But imagine I get like 10 calls like this every week, how much do you think I will make?

I believe you understand the concept now.

But, the advantage of what I will show you is that it is done completely online and I would show you how to sell even if you have zero friends.

I will teach you how to **convert COLD TRAFFIC fast**(people who don't know you) online. Because that is where the big money is.

The smart affiliate marketing online business model I am about to explain to you can bring in 7 figures to your bank account weekly/monthly without leaving your room (that is if you are smart enough to use the right marketing approach).

You might ask-**So How Does The Affiliate Marketing Business Model Work?**

This time around, let me explain with my story...

I belong to an affiliate platform called Promptearn that enables me to promote top-notch digital products.

These products are created by experts in various niches like - making money online, health & wellness, blogging, business development affiliate marketing, entrepreneurship, lifestyle, etc...

Digital products are usually in electronic format that can be downloaded or stored online, examples include: PDFs, e-books, software, video tutorials, manuals, membership programs, masterminds, etc...

And of course, Promptearn is not the only Affiliate program, there are others like Jvzoo, Moreinche, and Clickbank: which is the No.1 Affiliate Platform in the world with an annual turnover of \$1 billion US dollars.

But the sad part is, we Nigerians are notorious, (for reasons you probably know) and are banned from foreign Affiliate Programs

The one you will be using is Promptearn

Promptearn is known to be a top rewarding affiliate platform in Nigeria with a **very high affiliate commission** on high valued digital products.

Your commission on ONE product is between 5k to 150k.

So, imagine if you sell just 10 of the products with the 150k commission in a month which is very possible if you decide to do it full time.

You also get paid in

And you can easily achieve that as well by promoting top quality products from the same affiliate platform using the same marketing techniques we used which I am about to share it with you.

Like I said at the beginning of this book, results are not typical, and your results in life are up to you.

If you take a good look at what I have explained above (you can read that again), you should have an idea of what affiliate marketing online business model is all about.

But in case you haven't, let me spell it out clearly to you...

Affiliate Marketing Business Model Is All About 3 major Steps

1. You become an expert affiliate.

Registration on Promptearn As an Affiliate costs 5,000 naira. **Although I'll be showing how you get it for FREE with a super added advantage, just keep reading.**

2. You select any product of your interest you wish to promote.

3. You create your marketing vehicle(which I will show you) for the product which I will show you how to do even if you have zero friends and contacts on WhatsApp, Facebook, twitter, and Instagram.

Question 5:- But, Is affiliate marketing, not a scam?

Answer:- I just explained to you, it's not o.

Keep an open mind and follow me.

Affiliate marketing is the process where people can earn a commission by promoting an organization's products or services. It's a performance-based advertising channel in which businesses have to pay a predetermined commission for every affiliate conversion made.

Question 6:- How will I sell when I don't have any friends on my contact list?

Answer:- Don't worry, even if you are alone on an island. I will soon show you how to still sell easily.

That's what the AUTOMATED INCOME MACHINE training program is for. It's the best program that has ever happened to Affiliate marketing in Nigeria.

It has made it so easy to sell products Online fast and I would be talking about it shortly.

Commissions are paid on weekly basis - Every Sunday.

- All products are digital which can be downloaded instantly upon payment by the users and you get instant commission as well.

Question 7:- Badmus, are you sure It's not complicated?

Answer:- All you need do is copy me and follow every instruction I tell.

If you don't know how to follow instructions or you are always acting as you know it all, you might as well stop reading now.

If you follow the instructions and do what I tell you to do, it won't be complicated.

Question 8:- Can I make money quickly and easily?

Answer:- It depends on what you mean by "quickly". But let me show you what's possible.

--This was made in me less than X time.

(ADD A TESTIMONAIL HERE)

--This was made in Y time.

(ADD A TESTIMONAIL HERE)

--A friend of mine made X in a week.

(ADD A TESTIMONAIL HERE)

--Another friend of mine made X amount in Y days.

(ADD A TESTIMONAIL HERE)

So, I think you already have an answer to your question.

Question 9:- How much can I make like in a week or month?

Answer:- Depends on how much time you give it. For me, I give it like an hour a day because I'm a real estate agent. I sell cars and I also trade forex plus I have students to teach.

I still have other side hustles.

But, I can guarantee you 100% that if you give it like 30mins- 1hr a day at least implementing everything that is taught, you should start making between 30k-200k weekly depending on the product you choose to sell using the exact EASY and step-by-step marketing system I will show you.

Your commission ranges from 30% - 80% per sale, depending on the product you choose from your affiliate dashboard.

I would suggest hot products for you to choose from.

Another advantage about this is that;

- You don't have to create any product.
- You can start promoting the product immediately.
- All products on the platform are top-notch, created by experts.
- It doesn't disturb your other line of business/work you might have.
- It has the highest affiliate paying commission so far in Nigeria.

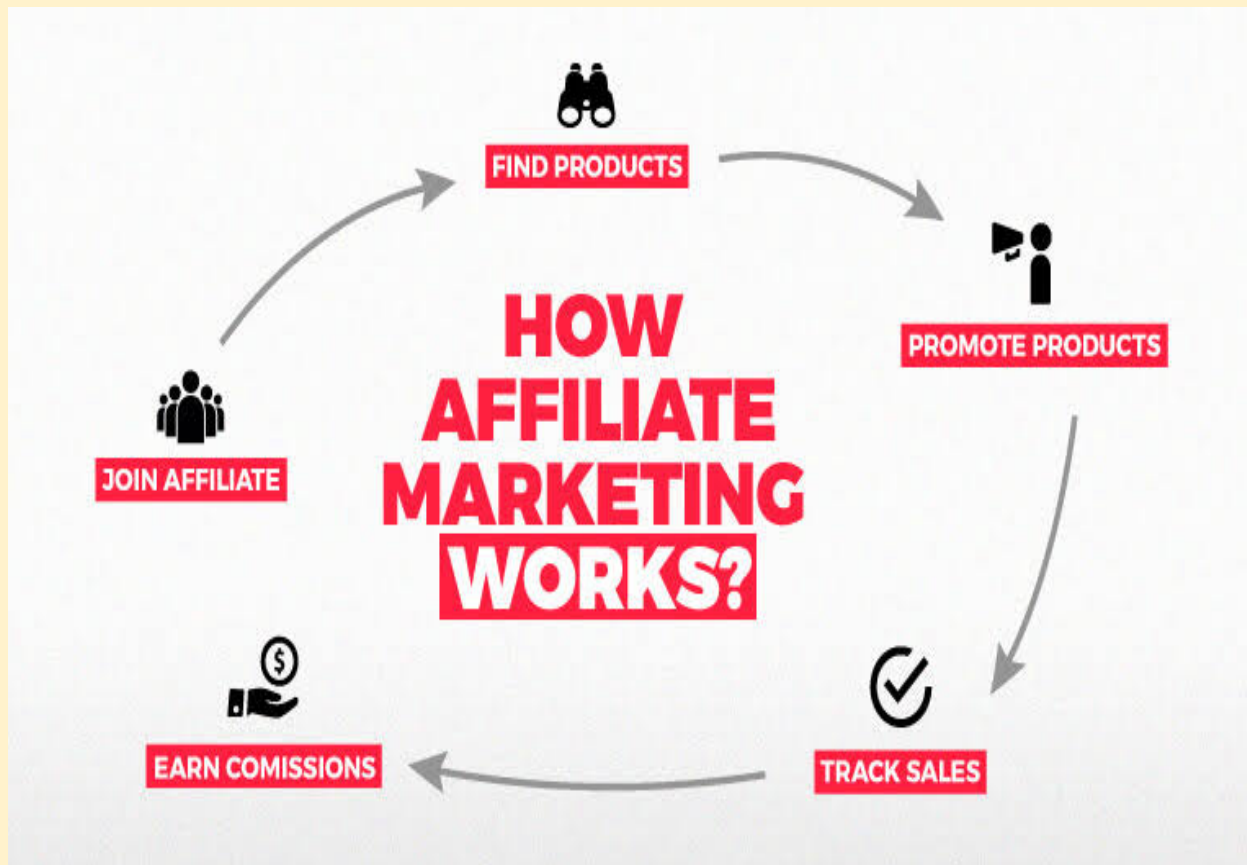

Question 10:- Do I need to have a laptop?

Answer:- No, but you need a good phone at least.

Question 11:- Don't you think it will crash?

Answer:- I already told you it's not bring 10k to pack 10m or bring 2k to get paid 10m. Eliminate this Ponzi mindset you might have and keep an open mind.

Affiliate marketing has been around since the beginning of time.

Question 12:- But Mallion, I don't like selling. I'm shy and isn't selling wrong?

Answer:- What do you mean selling is wrong?

Don't you know you sell your way through life every single day?

Dan Lok, a global online entrepreneur once said, " your ability to close(sell) largely determines how successful and happy you would be in life.

If you don't know how to sell, you don't understand the technique of persuasion, influencing, and selling, you would end up with what life gives you.

When you are asking that girl out, or you want that guy to notice you, you are closing(selling yourself to her or him). That's why you see people marrying someone they don't love, sometimes it's because they don't know how to close(sell themselves to) the person they love.

When you want to have sex with a girl, you are closing(selling yourself to want to make her have sex with you).

When you are at a job interview, you are closing.

When you are negotiating, you are closing.

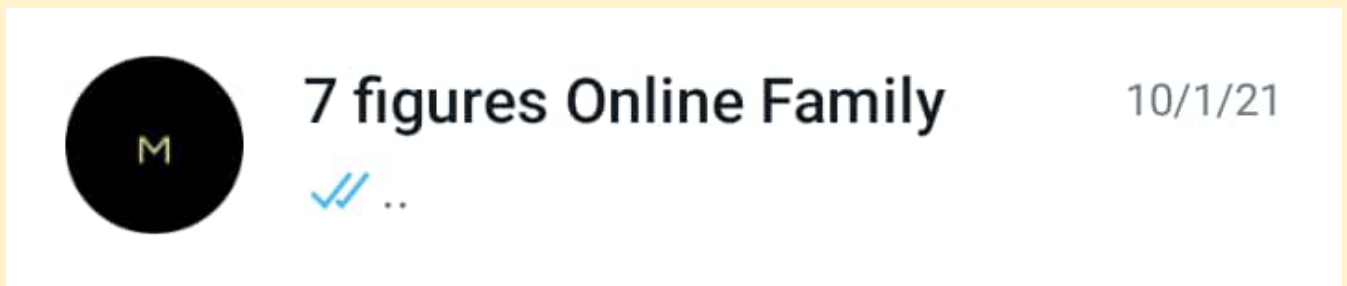

When you are asking for a job raise, you are closing(selling).

Almost everything in life requires you to close(sell). And as such, whether you start this online business or not, you still need to learn how to close(sell yourself to get what you want).

So, selling isn't bad. And if you are shy, it doesn't matter. It's purely an online business and most of the people you would be selling to won't even know you.

So, you have nothing to be worried about, alright?

And also, the family and I got you (I would talk more about this later).

Question 13:- What do I need to get started?

Answer:- You need three things to start.

- 1.) A good smartphone or a laptop
- 2.) You need to commit at least 30mins-1hr daily to follow the easy instruction.
- 3.) You would need X amount to register to get the AUTOMATED INCOME MACHINE with a free affiliate account.

Answer:- Expensive? **A business course that is 100% guaranteed to show you step-by-step how to easily make 100k-300k(or more) weekly Online from the comfort of your Bed is expensive at X amount?**

People spend millions on getting a degree all their life and still end up working at a job paying **100k per month working 9-5 EVERYDAY.. Forgetting what living feels like**

Question 21:- What motivates you, Mallion?

Answer:- Let me tell you a secret I rarely tell anybody.

I remember a lot of time ago when I was in 100L, just entering 200L. I couldn't afford accommodation and because of that, I had to live in a shop at a market. We call the market "June 12" in the school I attended, UNIBEN.

I lived in a laundry shop for 1 year plus. I would bathe outside very early in the morning and when I wanted to use the toilet. I would enter any bank's toilet during the day.

I hated that life. I woke up one morning hungry as usual and it suddenly dawned on me that no one was coming to rescue me.

I had no wealthy parent or a rich uncle.

I was 100% responsible for how my life turns out.

I took a different approach to life that day.

Your case might not be as bad as mine, but you need to understand that you are 100% in control of your life.

You need to know that how your life turns out is on you and you alone except your dad is as rich as Dangote.

And in case you are wondering what I look like, this is me in the picture below...

Thank you for reading this book till the end. Feel free to send a message if you have any.
